Dear Sir / Madam

I am bringing to your attention the scientifically established fact that the rollout of 5G technology and the experimental LED carrier assets are indictable offences under domestic and international laws, and a crime against humanity and the environment. PHE have already warned of the health risk. Your involvement in the deployment, deception, misinformation and cover-up in the wider community and continued support for this crime have been noted. Any further support of this indictable offence provided by you once you have been informed by this letter will demonstrate your real intent in regard to this crime.

To mitigate your involvement, we demand that you cease and desist from your role in the rollout of 5G, so that the main architects of this criminal enterprise can be held accountable, while those who have been coerced into involvement can be seen to have acted in less serious roles. The Accessories and Abettors act 1861 as amended by the Criminal Law Act 1977 covers all those who can be shown to have known of this human rights crime yet who have not acted in accordance with the law.

Yours sincerely
